

I'VE GOT THE **POWER**

TWO IN ONE

 **legrand**[®]

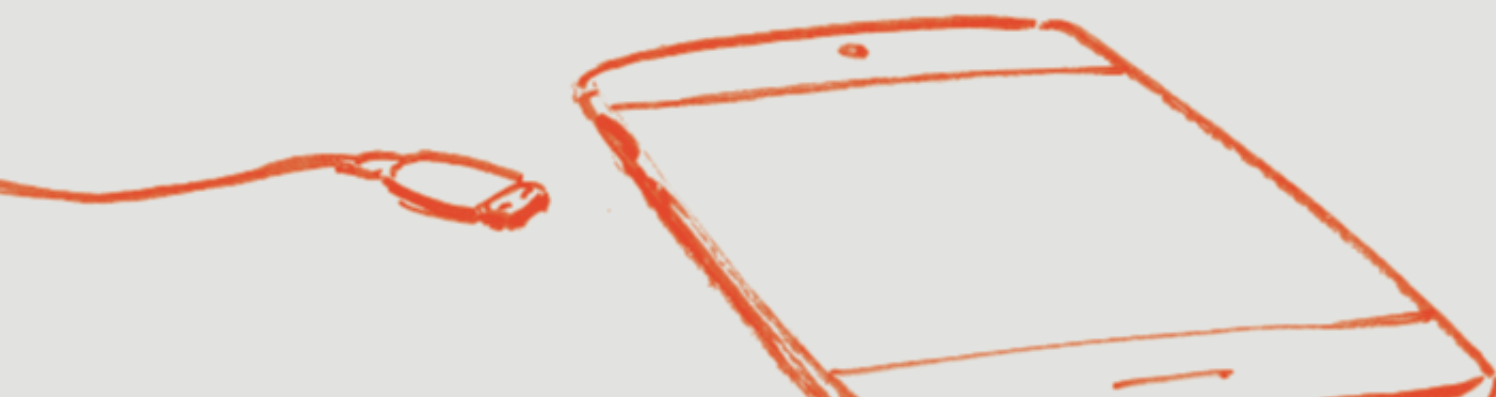

www.fengshengelectric.com.sg

Mobile phones,
tablets, power banks,
bluetooth speakers,
wearable tech....
Mobile electronic
consumer devices
have become part of
our daily life.

As the number of mobile devices grows, so does the need to charge them. Whether at home, in airport terminals, restaurants, offices or waiting rooms - it seems like there are never enough power outlets.

Integrated USB sockets are a great way to solve this typical modern-day problem.

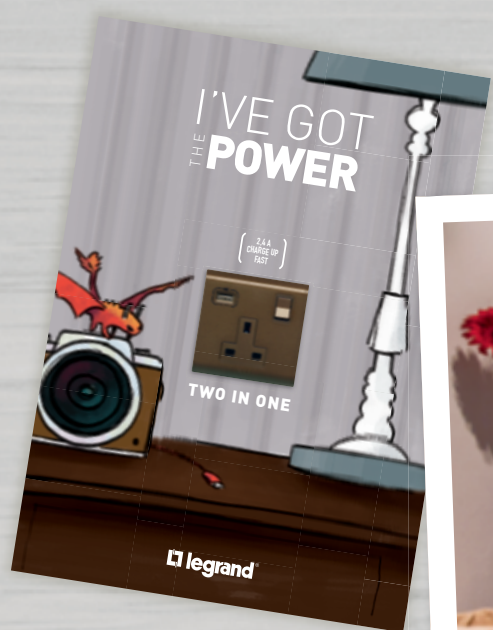

TWO IN ONE

The new BS 13 A sockets with USB charger combine standard power with the convenience of USB charging: your device plugs straight into the USB port, leaving the standard socket free. No need for bulky adaptors, and no need to compromise on running your other appliances as usual.

Now available in the Mallia™, Belanko™ and Synergy™ ranges: for perfect integration into existing or new installations.

Stay connected anywhere, any time

Keeping our mobile devices charged and running is essential to stay connected and keep contact. Whether at home, at work or on the go.

Tablets
eBook readers
Gamepads
etc.

SYNERGY SLEEK DESIGN
BRUSHED STAINLESS STEEL

(Easily future-proof your projects)

Fitted exactly like a traditional socket, the 13 A BS socket with USB charger is easy to install and offers a new function to meet increasing connectivity requirements.

Ideal for future-proofing new installations as well as retrofit.

STANDARD COMPLIANCE

(In-built safety)

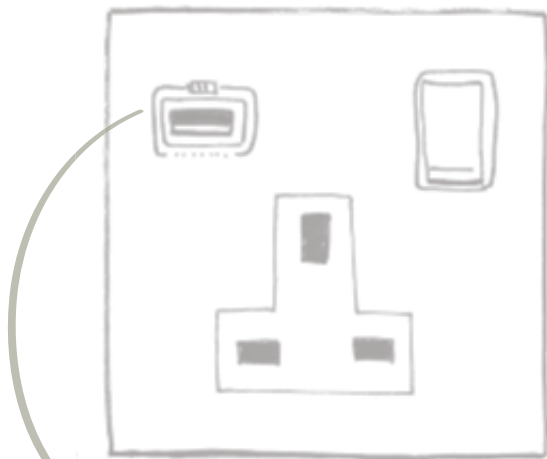

All 13 A BS socket outlets with USB charger are conform to BS 1363-2.

Designed with safety in mind, they are shuttered for child safety.

The USB chargers are conform to IEC 60950-1.

Consumption in passive mode: 75 mW

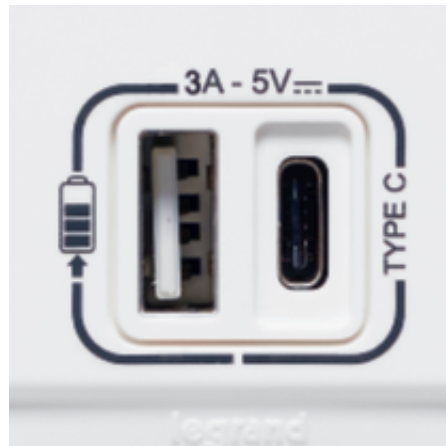

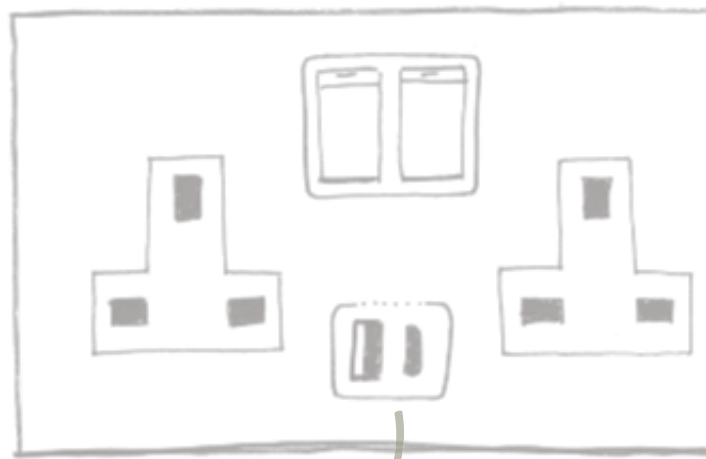

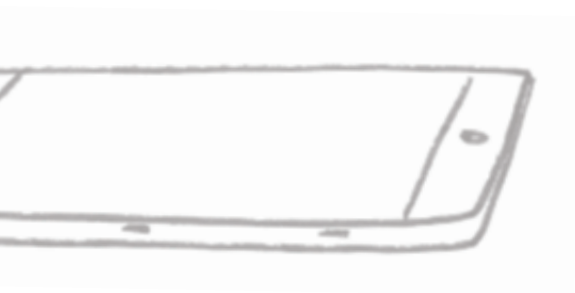

(Charge at full speed)

The traditional 1 gang 13 A BS socket outlets are equipped with a 2.4 A - 5 V_{DC} - 12 W USB charging port.

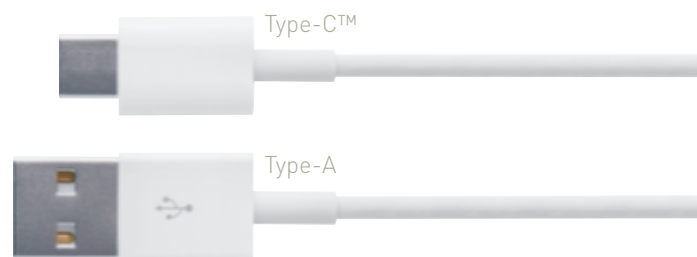

The output of 2.4 A allows to charge any tablet at full speed.

(Thinking of tomorrow today)

The 2 gang 13 A BS socket outlets are equipped with two different USB charging ports, **Type-A and Type-C™**, 3 A - 5 V_{DC} - 15 W

With USB Type-C™ making its way more and more into phones, tablets, etc. you are sure to be prepared for tomorrow - today.
